

UNIVERSITY OF CALIFORNIA

Campus:	Berkeley
Project Name:	Campbell Hall Seismic Replacement Building
Project Description:	This project will construct a new physical science building on the Berkeley campus to replace the seismically poor Campbell Hall building that will be demolished. Through demolition of the existing building and construction of a new, one-third-larger building in its place, the new building will provide critically needed laboratory facilities for the Physics Department as well as expand space for the Department of Astronomy and its associated research groups.
